Safety is our top priority for our crews and members of the community; We will make every attempt to ensure services run seamlessly during the duration of the asphalt project. If we are unable to perform collection due to circumstances beyond our control, including but not limited to roadways deemed impassable by our drivers, parked vehicles, inclement weather, etc., we will make every effort to resume collection on the next regularly scheduled collection days after the area becomes accessible again. Any overflow of everyday household generated materials that accumulate will also be collected.
